Diagnosis

Veikta datora diagnostika un vizuāli mehāniskā izspēte kuras laikā konstatēti plaši mitruma bojājumi uz pamatplates un klaviatūras (skatīt pievienoto bildi). Apple diagnostikas sistēmu nav iespējams veikt, jo dators neieslēdzas. Pirmais solis, jāveic pamatplates un Top case nomaiņa 983,- EUR. Pēc pamatplates un Top case maiņas varēs pārbaudīt vai citas datora komponentes darbojas atbilstoši Apple specifikācijām.
